REAL ESTATE AND BUSINESS. Conditions in State About Same as Last Year-Improvement Locally.

E. B. WORTHINGTON MADE Last week Norwich had 12 sales of real estate to six a year ago that week while the mortgage loans were \$34,470 and \$5,900 respectively.
In the state there was very little difference in the volume of real estate transactions for the week just closed and the like week of last year. A total of 225 sales for the week compares

with 234 the previous year, and the aggregate amount of mortgage loans in the towns reported in the Commercial Record for the week is \$624,223, against \$520,159 a year ago.

The record of petitions in bankruptcy filed in this state during the week is very unsatisfactory. There were but three petitions, but a very considerable amount of money is involved. Average assets of \$16,513 compare with average liabilities of \$23,234.
